

To Whom It may concern

Freedom House has really changed my life. I no longer indulge in drug or alcohol use. In my own opinion there is no other sober house better. The staff here are really great people. The staff like to be involved with you to see how you're feeling what you been up to. The motivation for yourself to be sober is really high. They're really passionate about helping you get better they really care. I believe Freedom House is a blessing to all that come here. I have become closer to god through freedom house and there programs here. Freedom House has healed the relationship with my mother. Freedom house has better my life.
